**14. General Summary of Function/Purpose of Position**  
This is the experienced (master) level. The employee obtains permits, performs electrical work as required by law, and performs the full range of technical aspects of electrical work. The employee uses considerable independent judgment in making decisions without the availability of supervision. The employee will work in concert with other Electricians and trades to perform a full range of electrical assignments for projects on state properties as required for maintenance, construction, and remodeling. The employee will use a wide range of power tools and other equipment appropriate to the work. The employee will provide customer service with courtesy, respect, and attention to detail, work cooperatively with staff, and assure all staff are customer service oriented, expressing a positive and helpful outcome to projects and during daily interaction with tenants.

**For Civil Service Use Only**

**15. Please describe your assigned duties, percent of time spent performing each duty, and explain what is done to complete each duty.**

Duty 1

**General Summary of Duty 1**

**% of Time 70**

Obtains permits, performs electrical work as required by law, and performs the full range of technical aspects of electrical work.

**Individual tasks related to the duty.**

- Serves as the licensed Electrician on-site at the construction or remodeling project.
- Obtains proper permits as required by law to carry out electrical work on construction or remodeling projects.
- Regularly inspects and evaluates electrical and electronic equipment to ensure that it operates efficiently and safely, follows recommended maintenance schedule for cleaning and lubricating equipment, and maintains records on equipment status and maintenance.
- Studies blueprints and schematics and determines methods, materials, and equipment needed to complete the assignment.
- Connects wires to plugs, switches, controls, light fixtures, traffic controls, appliances, motors, breaker panels, and switchboards.
- Splices wires by stripping insulation from wire leads, twisting, clamping, and/or soldering leads together and applying insulating terminal caps using a variety of hand tools; makes underground waterproof splices.
- Disassembles, repairs and reassembles or replaces defective electrical equipment such as plugs, switches, outlets, controls, ballasts, motors and appliances using hand tools, test equipment, and service manuals.
- Tests installations to check and ensure continuity of the circuit, and the compatibility and safety of all components using test equipment such as an ohmmeter, ampmeter, voltmeter, oscilloscope, or battery buzzer.
- Measures, cuts, bends, threads, assembles, and installs electrical conduit, junction, switch, outlet boxes, and switch boards using hand tools and such special equipment as mechanical drills, cutters, benders, and threaders.
- Cleans and lubricates equipment and maintains records on equipment status and maintenance.
- Installs and repairs telephones, light fixtures, electrical controls, motors, and appliances using hand tools and electric drills.
- Inspects and evaluates electrical equipment to ensure that it operates efficiently and safely; determines whether equipment and new installations meet requirement of the National Electric Code.
- Pulls wire through conduit.
- Determines materials needed for most frequently occurring repair work, prepares requisitions, and monitors inventory.
- Cleans and maintains tools and performs routine maintenance on special equipment used in Electrician's work.
- May assist in training lower-level Electricians and others.

Duty 2

**General Summary of Duty 2**
