14. General Summary of Function/Purpose of Position
Perform a full range of technical electrical work utilizing and training prisoner workers to maintain facility operations, safety and security. Employee works inside and outside the secure perimeter of a multi level correctional facility.

15. Please describe the assigned duties, percent of time spent performing each duty, and what is done to complete each duty.

List the duties from most important to least important. The total percentage of all duties performed must equal 100 percent.

Duty 1

General Summary:

Percentage: 80

Install, modify, repair, trouble-shoot, and replace new or existing electrical systems and systems components. Items included but not limited to completing assignments for power distribution systems, lighting systems, communication and alarm systems, camera and monitor systems, Security systems, computer networks, food service equipment, and limited television systems. Work from blueprints, schematics, and drawings to calculate riser's locations, routing of conduits, wiring, and lighting requirements.

Individual tasks related to the duty:

Set up system routes, place, and cut route openings, place hangers to properly support and hold route conduits according to accepted standards, practices, and codes. Install electrical system components, including but not limited to electrical boxes, fixtures, and equipment. Pull/install and terminate wires to code standards. Complete work in a safe and professional manner. Responsible for the application of proper safety precautions associated with electrical trades. Apply and employ accepted standard procedures, codes having jurisdiction, and proper tool usage. Teach, train, and instruct prisoner tradesmen and helpers in the proper procedures, care of tools, and equipment associated with the electrical trade. Responsible for the supervision and security of the prisoners assigned to his work crew. Responsible to maintain tool control as directed by policy and procedure. Work along side and with inmate crew members assigned under employee's supervision. Instruct inmate workers in the fundamentals of the electrical trade, employing accepted industry standards. Instruct inmate crew in the safe performance of the daily assignment. Insure the security of the institution is not compromised by any actions of the crew nor an individual member while on assignment. Maintain records of time and attendance for the inmate crew members. Complete payroll reporting requirements for members of the inmate work crew. Take corrective action, as required for improper inmate behavior. Rate and report, as required, inmate job performance. Train inmates in all aspects of electrical maintenance, safety, procedure, and methods, encountered in the workplace.

Duty 2

General Summary:

Percentage: 10

Prepare cost and material estimates for projects and service requests. Quote and requisition materials and supplies needed to maintain operation related to the assignment. Maintain a working inventory of parts and supplies required for electrical system repairs and installation in stock. Complete regular repairs on projects and service requests. Draw sketches, schematics, and update blueprints to properly reflect changes made to institutional electrical systems. Maintains Tool inventories on a rotational basis.

Individual tasks related to the duty:

Investigate, compile, and present information relating to requested changes. Develop plans of action consistent with electrical standards and in compliance with code requirements to complete facility generated renovation and repairs. Contact supply vendors for ordering parts, formulating cost quotes, and completing projects, renovations, or repairs desired by the facility. Completes monthly paper work for all P.M. and tool inventories as required by policy.

Duty 3

General Summary:

Percentage: 10

Completion of other assignments as directed by supervisory staff.

Individual tasks related to the duty:

Workloads, facility needs, and emergency requests of a safety and/or security or unspecified nature may require this position to perform other assignments then those directly related to the electrical trades. Position may, at times, and on a non-continuing basis be assigned to complete other duties; including but not limited to: snow removal equipment operation, component replacements, equipment repair, Plumbing/Mechanical/HVAC repairs, housekeeping, door hardware and lock repair, inventory stock recording and report writing

16. Describe the types of decisions made independently in this position and tell who or what is affected by those decisions.

Assign work to members of the prisoner work crew in accordance with the prisoner's proven ability, job difficulty, safety factors, and facility priority. The employee must be able to make decisions relating to trade fundamentals and available options. The employee must be able to make immediate decisions to eliminate any safety or security concern affecting the inmate crew assignment.

17. Describe the types of decisions that require the supervisor's review.

Any decisions, for which the position may be unsure which action would be appropriate, should be discussed with the supervisor. Position must not hesitate to ask for clarification of any directions or requests received which are unclear or the position feels may violate safety, security, or code standards. The position will make decisions concerning the purchase of supplies and repair parts required to complete assignments. The employee will seek supervisory review and approval for decisions that may change the routine operations of the Maintenance Department.
