Summary of Duties

Employees in this job serve as Fire Safety Inspectors ensuring that state facilities, institutions, and businesses located in the state are in compliance with the applicable fire safety codes and standards and various state laws, rules, and regulations.

Qualifying Criteria

Employees must meet 5 of the 7 senior standards to qualify for the senior level.

Work Descriptions

Description of Work #1

Perform inspections of construction and/or, institutions, businesses and/or marijuana facilities throughout the state to assure compliance with the State Fire Safety laws and rules.

Experienced

Schedule as directed routine inspections as a result of construction activity and/or marijuana facility activity performed under supervision in a geographically designated area of the state.

Senior

Conduct complex inspections of construction and/or marijuana facilities, institutions, and businesses to assure compliance with laws and rules. This may include inspection as a result of a fire or hazard complaint in a state regulated facility.

Examples:

Examples of complex inspections senior level staff are expected to complete include hospital inspections, new building(s), school safety inspections, flammable inspections, and stacked grow facility inspections.

Description of Work #2

Perform inspections of semi-annual and/or annual maintenance throughout the state to assure compliance with the State Fire Safety laws and rules

Experienced

Schedule as directed routine inspections to determine continued compliance with the State Fire Safety laws and rules under supervision in a geographically designated area of the state.

Senior

Conduct complex facility inspections of semi-annual and/or annual maintenance to assure compliance with State Fire Safety laws and rules. The senior level inspector will conduct these inspections in some of the most complex state regulated facilities, institutions or businesses.

Examples:

Examples of complex facility semi-annual and/or annual inspections include processor facilities, stacked grow facilities, AFC homes, hospitals and healthcare facilities.

Description of Work #3

Investigate complaints filed with the bureau/department against licensed facilities or state regulated facilities.

Experienced

Experienced level inspectors occasionally conduct inspections as a result of a fire or fire hazard complaint filed with the bureau. A lead investigator may assist with this activity.

Senior

Senior level inspectors will act as lead investigators for 70% of the fire or fire hazard complaint inspections filed with the bureau in their geographically designated area. Will work with locals to determine fire safety requirements.

Examples:

Lead investigators prepare detailed written inspection reports. These complaints could result in administrative hearings and/or court action. Inspectors may be required to testify at hearings and court proceedings on matters related to findings of inspections.

Description of Work #4

Prepare and conduct training programs for bureau training or advocacy groups and facility administrators as it relates to the state fire safety rules.

Experienced

Experienced level inspectors rarely perform this function.

Senior

Senior level inspectors are required to prepare training materials for presentations to staff, industry representatives and others as assigned.

Examples:

Inspectors are required to travel to various areas of the state to conduct training programs. Presentation requires ability to answer routine and complex questions regarding the subject matter and necessary follow-up to unresolved issues identified during training presentations.

Examples of trainings include: CRA Social Equity Program outreach training sessions, AFC advocacy group training and BCHS Fire Safety Requirement training.

Description of Work #5

Provide preconstruction consultation to architects, contractors and/or building owners regarding construction and/or marijuana facility projects.

Experienced

Experienced level inspectors are required to answer general questions regarding code requirements.

Senior

Senior level inspectors will provide consultation on complex or sensitive construction projects. Areas of expertise include suppression systems, fire alarm systems, construction types and fire ratings. Staff may meet with owners or project superintendents and may meet on-site if necessary. Staff may also provide interpretations of code and law.

Examples:

An example of a complex consultation for preconstruction includes hospital renovations.

Description of Work #6

Assist management staff in the advising and/or development of, or updating of fire safety rules including participating on Ad-Hoc committees.

Experienced

Experienced level inspectors are not required to perform this function.

Senior

Senior level inspectors serve on rules development Ad-Hoc committees and provide technical input. This includes a review of existing rules and those proposed at the national level. Staff must perform a comparison and propose additions, deletions, and amendments for use in Michigan. Staff may also be required to draft rules and assist bureau personnel in the promulgation process.

Examples:

Examples include AFC rules updates, Fire Safety Rules updates, CRA Rules updates.

Description of Work #7

Perform the most complex federal inspections for Medicare and Medicaid funding.

Experienced

Experienced level inspectors would only perform these surveys under supervision until they have completed and passed all mandatory federal trainings, have at least six months on the job as a surveyor and complete at least three full surveys under supervision.

Examples:

Examples include CMS recertification and/or validation surveys.

Senior

Senior level inspectors will act as lead investigators for 70% of the CMS federal inspections. Senior level inspectors prepare detailed written inspection reports and complete all required federal forms. These inspections could result in penalties being imposed on facilities. The inspectors could be required to participate in administrative hearings and/or court actions. Inspectors may be required to testify at hearings and court proceedings on matters related to findings of inspections.
