14. General Summary of Function/Purpose of Position

This position serves as a senior level IT project coordinator for information technology projects. The senior project coordinator functions as a PMO resource to DTMB managers, supervisors, and staff that are involved in application maintenance and development.

This includes development, maintenance, and oversight of project schedules that are logical and resource driven. Maintains change control process, including a structure to manage and track changes in scope. Identifies project issues and risks and escalates to senior management as appropriate. Monitors project performance, reports status, and facilitates the creation of actions plans to promote adherence to project schedules.

Interacts with a variety of teams as needed to develop and maintain project schedules and related documents. Assists in information gathering, budget analysis, project estimating, and procurement. Provides assistance on special projects. Promotes compliance with the State Unified Information Technology Environment (SUITE). May utilize Scrum methodology and practices.

15. Please describe the assigned duties, percent of time spent performing each duty, and what is done to complete each duty.

List the duties from most important to least important. The total percentage of all duties performed must equal 100 percent.

Duty 1

General Summary:

Percentage: 40

Serve as the project administrator for projects included in the DTMB project portfolio. Serve as a liaison between DTMB and the client concerning requests, standards, and other program and project matters.

Individual tasks related to the duty:

- Evaluate multiple improvement options and make recommendations for process improvement to the local DTMB/client agency SUITE Support Team.
- Develop, design revisions and deliver training to the SUITE processes and deliver training to the DTMB PMO as an ongoing initiative, functioning as a consultant to DTMB and client agency managers, supervisors, and staff in all aspects of SUITE usage.
- Provide professional analytical expertise to DTMB and client agency managers for project budgeting.
- Provide assistance as needed in the development of Statements of Work (SOW) and Requests for Proposals (RFP) if DTMB and client agency determine that outside contractors are needed for a given project.
- Ensure proper documentation is saved in EPMO Project Repository

Duty 2

General Summary:

Percentage: 35

Interact with a variety of teams as needed to develop and maintain project schedules and related documents. (Project Management)

Individual tasks related to the duty:

- Conduct impact analysis on project schedule and budget; build constraints, assumptions, and estimates in order to create formal Change Control Requests for approval by DTMB and Agency Managers/Executives.
- Create mitigation plans to assist senior management.
- Monitor changes in emerging technologies and recommend changes when necessary to program office and program management processes and delivery techniques.
- Facilitate workgroups for Technical Requirements, Structured Walkthroughs and define the program and project deliverable for the Stage Exits.
- Research and create project schedules that comply with the SUITE Project Management Methodology (PMM) and the Systems Engineering Methodology (SEM).
- Facilitate and participate in project meetings and capture notes, action items, etc.

Duty 3

General Summary:

Percentage: 20

Perform Portfolio and Release Management activities.

Individual tasks related to the duty:

- Compare incoming projects from Change Requests or Client Requests with DTMB Strategic Plan(s). Takes corrective action if they are not in alignment.
- Interpret standard reports, analyze deviation from project plans, and perform root cause analysis to facilitate decision making by DTMB and client agency executives on project prioritization by displaying project data in an informative and meaningful manner.
- Research and collect project data necessary to meet project reporting.
- Provide project plan trend analysis and control including analysis, research, development and maintenance of the project data.
- Act as a subject matter expert for the enterprise project management tool and assist clients with questions related to tool functionality.

Duty 4

General Summary:

Percentage: 5

Provide assistance on special projects.

Individual tasks related to the duty:

- Act as a project resource or project manager on special projects for the enterprise on an as-needed basis.
- Work with other project administrator(s) as needed.
- Stay abreast of emerging technologies, project management techniques, and external process changes by reading industry publications, attending training, etc.
- Other duties as assigned.

16. Describe the types of decisions made independently in this position and tell who or what is affected by those decisions.

Regular project updates in various project management tools.

Day-to-day project management tool administration (back-up).

Day-to-day duties that do not affect work outside of the PMO serving DTMB.

17. Describe the types of decisions that require the supervisor's review.

Matters that affect the budget.

Modifications to project management tools, methodologies, or processes.

When decision results in a business process change.

When a decision impacts DTMB goals or priorities.
