15. Please describe the assigned duties, percent of time spent performing each duty, and what is done to complete each duty. List the duties from most important to least important. The total percentage of all duties performed must equal 100 percent.

**Duty 1**

**General Summary:**
Prepare bridge design plans.

**Percentage:** 85

**Individual tasks related to the duty:**
- Design and prepare preliminary and final plans for the less complex bridges and miscellaneous highway facilities.
- Design and prepare contract documents utilizing electronic survey data for state trunk line bridge and miscellaneous highway facility construction projects.
- Utilize MDOT's current version of Microstation, Open Bridge Modeler, and Power GEOPAK, in conjunction with MDOT's sample plans, for design and drafting functions.
- Follow American Association of State Highway and Transportation Officials (AASHTO) and MDOT’s current manuals and guides for design (Standard Specifications for Construction, Bridge Design Manual, Bridge Design Guides, Standard Plans, Special Details, etc.)
- Compute quantity calculations.
- Calculate contract quantities for cost estimates and add those quantities to the plans in conjunction with MDOT's Plan Quantity Spreadsheet.
- Utilize AASHTOWARE to produce cost estimates for all major milestones.
- Estimate preliminary and final bridge costs.
- Design bridge elements utilizing bridge design computer programs, Mathcad, Excel, Leap Bridge, and MicroStation software.
- Manage project related documents utilizing ProjectWise, JobNet, and Outlook software.
- Participate in project meetings and field site visits.

**Duty 2**

**General Summary:**
Perform on-site field inspections.

**Percentage:** 10

**Individual tasks related to the duty:**
- Assist in field inspection of assigned projects to determine existing conditions.
- Provide recommendations for scope of work, construction methods, traffic problems, and specifications for materials and special equipment.

**Duty 3**

**General Summary:**
Miscellaneous duties.

**Percentage:** 5

**Individual tasks related to the duty:**
- Perform quality control reviews as required by supervisor for unit projects.
- Assist the supervisor as needed on various tasks within the unit.
- Stay up to date on design standards, drafting standards, and computer applications.
- Attend training that is relevant to the position as requested by the supervisor.
- Duties as requested by supervisor or related to the work unit.

16. Describe the types of decisions made independently in this position and tell who or what is affected by those decisions.

Proper application of design theory. Solutions to unexpected design problems occurring during construction. Interpretation of MDOT plans, specifications, and standards. Where issue is clear and does not involve policy. Decisions at this level are very basic. Those based on past precedents, similar situations, or past experience.

17. Describe the types of decisions that require the supervisor’s review.

Any decision that involves MDOT policy or is unclear. When interpretation of standards and/or other design guidelines is required. There may be unique situations with no precedent which will require the supervisor’s review. Decisions that affect the cost or schedule of a project.

18. What kind of physical effort is used to perform this job? What environmental conditions in this position physically exposed to on the job? Indicate the amount of time and intensity of each activity and condition. Refer to instructions.
Work involves normal physical effort of bending, stooping, and reaching for plans; moving heavy or bulky loads; sitting for long periods of time in front of a computer; overtime; and heavy workloads working with specific deadlines. Field reviews of proposed or active road/bridge construction projects requires traversing irregular terrain and exposure to dirt, fumes, heavy and high-speed traffic, or adverse weather conditions. Must have corrected vision to read plans or perform field related duties. Valid driver's license is required. Ability to perform the essential job functions with/without reasonable accommodations.

19. List the names and position code descriptions of each classified employee whom this position immediately supervises or oversees on a full-time, on-going basis.

Additional Subordinates

20. This position's responsibilities for the above-listed employees includes the following (check as many as apply):

N Complete and sign service ratings.
N Assign work.
N Provide formal written counseling.
N Approve work.
N Approve leave requests.
N Review work.
N Approve time and attendance.
N Provide guidance on work methods.
N Orally reprimand.
N Train employees in the work.

22. Do you agree with the responses for items 1 through 20? If not, which items do you disagree with and why?
Yes.

23. What are the essential functions of this position?

Design and prepare preliminary and final plans, proposal material, and cost estimating for bridge construction projects or miscellaneous facilities utilizing standard design practices and computerized programs (Microstation, Open Bridge Modeler, Power GEOPAK, ProjectWise, AASHTOWARE). Work is performed under general guidelines.

24. Indicate specifically how the position's duties and responsibilities have changed since the position was last reviewed.

25. What is the function of the work area and how does this position fit into that function?

Preparation of plans and contract documents for the construction and rehabilitation of structural highway facilities of all classifications in conformance with federal, state, or local requirements. To ensure the accuracy and completeness of the documents for bidding and construction purposes.

26. What are the minimum education and experience qualifications needed to perform the essential functions of this position.

EDUCATION:

Possession of a bachelor of science degree in engineering.
Possession of a bachelor of science degree in civil engineering is preferred.

EXPERIENCE:

Transportation Engineer 9 - No specific type or amount is required.
Transportation Engineer 10 - One year of professional engineering experience involved in transportation systems and programs equivalent to a Transportation Engineer 9.
Transportation Engineer P11 - Two years of professional engineering experience involved in transportation systems and programs equivalent to a Transportation Engineer, including one year equivalent to a Transportation Engineer 10.

KNOWLEDGE, SKILLS, AND ABILITIES:
Ability to communicate both orally and in writing. Ability to maintain favorable public relations and work in a team environment. Ability to utilize existing computerized technology in the completion of assigned objectives.

CERTIFICATES, LICENSES, REGISTRATIONS:

Possession of a valid driver’s license.

NOTE: Civil Service approval does not constitute agreement with or acceptance of the desired qualifications of this position.

I certify that the information presented in this position description provides a complete and accurate depiction of the duties and responsibilities assigned to this position.
